

Security Forces Facility (\$14,200,000). I would ban earmarks as we know them, but as long as these earmarks are available, I'm going to apply for them in an effort to pursue federal funding opportunities for my district. For military construction projects in the current earmarking system, the individual projects I sponsor have the support of our military and further our national security. Virtually all of the individual construction projects I support are already on the military services' Future Years Defense Program (FYDP) for funding in coming years. In addition, these individual projects are vetted by the professional staff on the House Armed Services and House Appropriations Committees during the appropriations process. I only request funds for projects authorized by law for federal funding and do not do so for private parties or entities. This project will construct a Security Forces facility at Warner Robins AFB, GA. It will move facility away from base fence perimeter, consolidate Investigations, Pass and registration, Supply, Training, Armory, law Enforcement, Security Control Centers, Corrections, Warehouse and Administrative areas. This is a valuable use of taxpayer funds because it will minimize risk from terrorist/domestic threats and railroad chemical spills. Beneficiary: Warner Robins AFB, GA 31098.
